## **Motion N° 1 EuNatCom : Periodicity change of the annual EuNat meetings.**

In Denmark 2017, it was decided to hold the EuNat meetings only in a two-year cycle directly after the WC.

However, this proved impractical for several reasons, therefore this new proposal:

EuNat meetings are held only in a two-year cycle in springtime in the even years when an INF-FNI World Congress is being held. This implies that the 2018 and 2019 budgets must be approved by the EuNat meeting 2018.

In years without EuNat meeting, the ENC Committee is authorized to adapt the budget to the current needs, because the INF-FNI grant is unknown at the time of its creation. This budget must be sent to the federations and to the INF-FNI EC.

Therefore, the § 4 (EuNat events) of the EuNatCom regulations must be completed by the following addition:

E	EuNat meetings are held only in a two-year cycle in spring in the even years when an INF-FNI World Congress is being held. This implies that budgets for two consecutive years must be approved by the EuNat meeting.
F	In years without EuNat meeting, the ENC Committee is authorized to adapt the budget to the current needs, because the INF-FNI grant is unknown at the time of its creation. This provisional budget must be sent to the federations and to the INF-FNI EC.

Financial impact: Important, between 4000 and 6000 €.
